About the Collaboration

Jade Life and Wellness by Dr Jade Kua believes in holistic good health for the whole family. In the past stressful year, we discovered that good sleep leads to good mental well-being.

And that was how the ***Good Night Marion*** collection was conceived, consisting of a pyjama collection for both juniors and adults, and other mindful merchandise.

Just for this March, we will donate 20% of proceeds for the sale of the Good Night Marion collection bundles to Guide Dogs Singapore, which helps the visually impaired enhance their quality of life by providing mobility training to the blind or visually impaired, and pair suitable candidates with Guide Dogs.

As a mother to three dogs, I am a firm believer that dogs have the ability to aid growth and bonding within the family, just like how my furry kids have played a big part in our family. Hence, we have decided to run this campaign with Guide Dogs Singapore as we are confident that their trained dogs can make an enormous difference to the lives of the visually impaired.

About Guide Dogs Singapore

At **Guide Dogs Singapore**, we believe that people with vision loss should not be limited by their disability. We aim to enhance the quality of life for people with vision loss through a range of rehabilitation programmes. Since our inception in 2006, our services have grown beyond providing guide dogs to include teaching people with vision loss the skills needed to live independently, and working with community stakeholders to build a supportive society for the visually impaired.

Thank you for believing in us.

“ I love animals, and a Guide Dog can bring me companionship and joy. More importantly, it will enable and allow me to regain the active lifestyle that I longed for again.”
- Loo Lan and her guide dog, Ria
